MACGYVER

Double Episodes - Saturdays at 8.30pm

MacGyver double episodes as part of 111 HITS Smash Hit Saturdays

MacGyver is a secret agent unlike any before him, or since. He is laid-back, mild mannered and deeply principled, with a background in physics and chemistry. He isn't a multi-linguist, a martial arts expert, or a master of disguises, you'll never see him shoot a gun and he's afraid of heights, but what he can do is work wonders with whatever household items are at hand in a crisis.

Using a paper-clip, a rubber band and a piece of gum MACGYVER is saving the day in on 111 HITS in Saturday night double episodes, and without ever getting a hair out of place.
