Each day, the report will deliver comprehensive information for key agricultural districts and include a detailed weather analysis for the: - Seven-day rainfall predictions - Rainfall deficiencies - Drought index percentages - Local dam levels - Wind speed and direction - Humidity indications - Cloud cover - Relevant weather warnings Country Skies, where the weather meets the land.

Green Minute

Daily just before half past the hour

Green Minute is designed to motivate and involve viewers in the most important discussion of the 21st Century, climate change. Highlighting new gadgets, gizmos, cutting edge inventions and prototypes of new 'green' products that are, or soon will be, available to Australians. This series is about issues that affect the lives of everyone – and future generations. The message is save energy, save money and save the Earth. Topics include green hotels, eco-fashion, green architecture, regenerating towns, solar powered laundries and recycled kitchens, bio-villages, conservation of World Heritage areas such as The Great Barrier Reef and much more.

Beach & Surf Report

Daily at 20 past the hour

The Beach and Surf report delivers a snapshot of your day at the beach, essential to any beachgoer. This report covers off all the changing beach and surf conditions for family destinations and surfing hotspots around Australia's coastline.
